

# FIVE AND GOOD

The femira Mattress Range

femira®

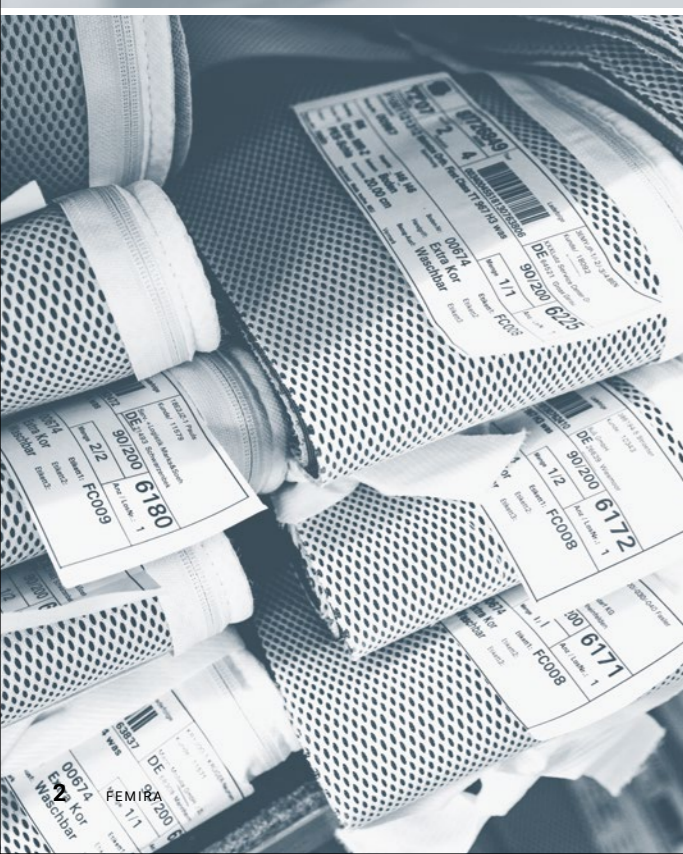

ALL THAT'S NEEDED FOR A GOOD NIGHT'S SLEEP

In-depth specialist knowledge: for over 60 years, femira has stood for quality mattresses "Made in Germany"

That's where every seam fits: the foundation of every femira bed is the craftsmanship of our development and production specialists

# FEMIRA MAKES THE DIFFE- RENCE: IN EVERY SINGLE MATTRESS

Not all sleep is the same – and it is a difficult thing to grasp subjectively. One thing is clear: good sleep is when you feel completely refreshed, recovered, and well rested.

As a specialist in holistic and individual sleep concepts, femira stands for solutions that create the best conditions for precisely this "good sleep." With over 220 years of experience in upholstered furniture and more than 60 years of expertise in mattresses and beds, femira has in-depth, expert knowledge that influences the development and manufacture of all femira beds.

On top of that, we maintain high standards: the quality of "Made in Germany" workmanship and exceptional craftsmanship have been part of our self-image for decades and have left a lasting mark on the reputation of the femira brand. With this brochure, we want to show you how femira thinks about mattresses. And we are certain that you will find your perfect mattress here: for the sleep of your dreams.

# FIVE AND GOOD

If you want to choose a new mattress, you are often faced with a confusingly large range of choices. femira takes a different approach: a clearly focused mattress portfolio that, on the one hand, makes it easy for you to choose and, on the other hand, covers all your sleep needs.

In the pages that follow, we will show you how you can use exactly five mattress types (available as pocket spring core or foam mattresses) to find the best possible personal sleeping solution.

**1 / The practical  
for turning:**

Double

There's no need for more varieties, but fewer would not make any sense. With these five mattress types, you will find exactly the right sleeping solution for your individual needs.

All five are available from femira in the pocket spring core (see p. 13) and foam variants (see p. 17).

# FIVE MATTRESS TYPES FOR ALL SLEEP NEEDS

**2 / The classic  
in various degrees of firmness:**

Dream

**4 / The air-permeable one  
with Eucafeel foam:**

Air

**3 / The adaptable one  
with special gel foam:**

Gel

**5 / The luxurious one  
with profiled Airplus cover:**

Max

# THE POCKET SPRING CORE PRINCIPLE

Depending on the type, femira pocket spring mattresses are equipped with 300–1,000 point-elastic pocket springs / 100 × 200 cm, each of which is sewn into individual pockets. Pocket spring cores support the different areas of the body more precisely than conventional spring cores.

# THE FOAM PRINCIPLE

Foam mattresses from femira are 7-zone mattresses made of high-quality PUR foam. The seven zones have varying degrees of firmness and support the body in a way that makes it possible to lie in an ergonomic way with a high level of sleeping comfort.

# POCKET SPRING CORE MATTRESSES FROM THE POCKET SPRING CORE SPECIALIST

**From “compact 2 in 1” to “fully equipped”:**  
with the five femira pocket spring core variants,  
you’ll immediately find the perfect, extremely  
well made pocket spring core mattress for  
a particularly restful night’s sleep.

You can immediately feel the quality of a  
pocket spring core mattress from femira.  
And it's reassuring to know that this good  
feeling will remain even after many nights.

# ADVANTAGE IN DETAIL: 5 × POCKET SPRING CORE

With these five pocket spring core mattresses, you will quickly find the right one for you – even in the right firmness level.

## 5 / Max KS

**7-zone cold foam core with profiled AIRPLUS cover**

- Total height approx. 25 cm (core height 23 cm)
- Zone support ●●●●●
- Pressure relief ●●●●
- Temperature regulation ●●●

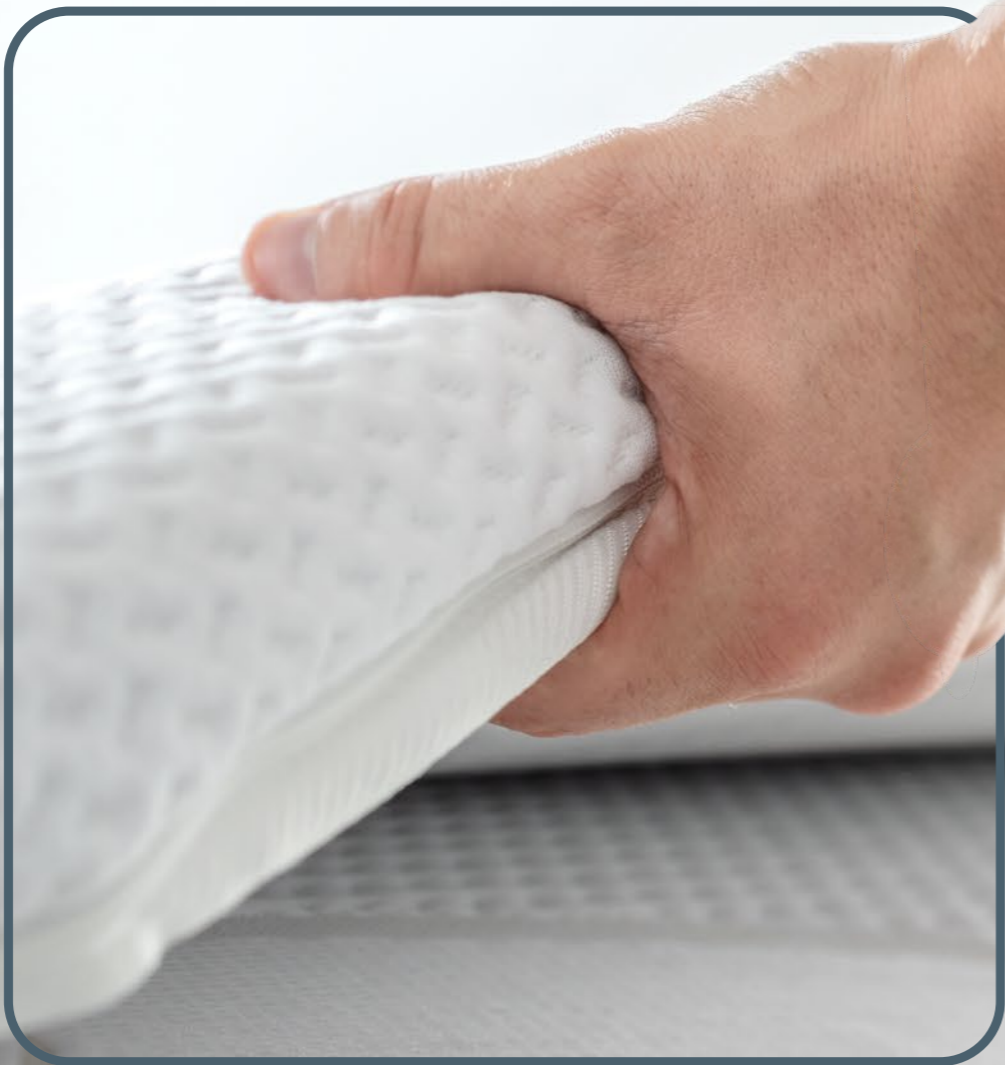

WHAT WE DO FOR YOU  
AT NIGHT YOU'LL  
NOTICE DURING  
THE DAY

Over 100 people work at femira every day to provide you and your family with the best possible individual sleep experience. You can feel the results every day.

And if you answer the question "Well, did you sleep well?" with a "yes," that's the best reward we can think of.

It couldn't be more personal: with a femira topper, you can change and improve every sleep sensation in accordance with your wishes. And, incidentally, that particularly applies if you don't yet have a trademarked femira mattress.

**BELOW AND ABOVE:**  
**THE**  
**EXTRAS**  
**FOR YOUR**  
**FEMIRA MATTRESS**

In addition to the right mattress, all the other elements of ergonomic principles and individual optimization are crucial for a particularly good night's sleep: a sprung wood frame, a topper, and a cushion. With femira, you get all this from a single source: the best possible processing and the best possible coordination.

As a holistic sleep specialist, femira offers you comprehensive solutions that, in combination with your desired mattress, result in exactly the sleep configuration that is best tailored to your personal sleep needs.

# THE ICING ON THE CAKE: YOUR PERSONAL FEMIRA TOPPER

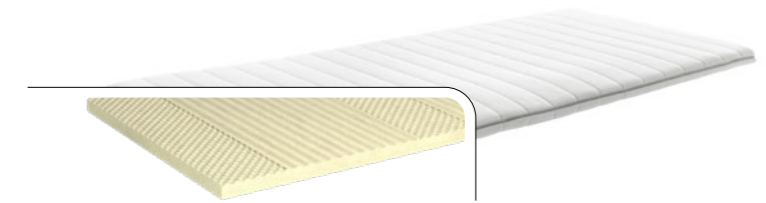

Improve your sleeping experience with a topper that perfectly matches your preferences.

## 1 / Basic

**Body-supporting cold foam**

- Total height approx. 5.5 cm (core height 4 cm)
- Pressure relief

## 2 / Shape

**Body-supporting cold foam**

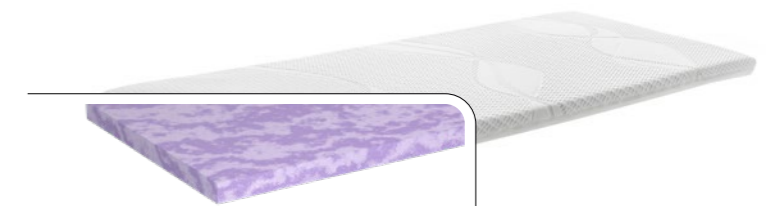

- Total height approx. 5.5 cm (core height 4 cm)
- Zone support
- Pressure relief

## 3 / Visco

**Particularly adaptable visco foam**

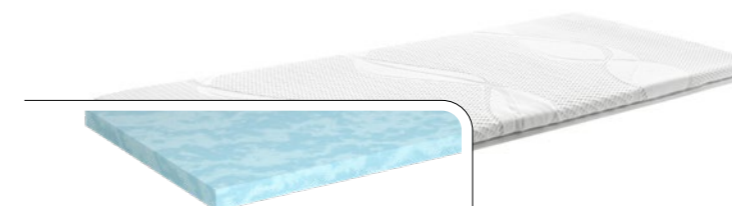

- Total height approx. 5.5 cm (core height 4 cm)
- Zone support
- Pressure relief

## 4 / Gel

**Open-pored gel foam for pleasant sleeping comfort**

- Total height approx. 7.5 cm (core height 6 cm)
- Zone support
- Climate control
- Pressure relief

## 5 / Air

**Airplus breathable Eucafeel foam**

- Total height approx. 7.5 cm (core height 6 cm)
- Zone support
- Climate control
- Pressure relief

# IN ADDITION: SPRUNG WOOD FRAME AND BOX SPRING INSIDE

## Balance 100

### The classic with first-class workmanship

- 28 high-quality sprung wood strips bonded with multiple layers
- Flexibly mounted joints, internal
- Individual firmness level adjustment in the middle zone area
- Versions: FIX/FLEX/MOT

## Balance 200

### The all-rounder with particularly good pressure distribution

- Offers all the properties of Balance 100, with greater resilience due to supporting joints
- Individual firmness level adjustment in the middle zone area
- Versions: FIX/FLEX/MOT

## Balance 700

### The strong one with maximum load capacity

- 28 sprung wood strips glued in multiple layers, 11 mm thick
- High load-bearing, up to 200 kg
- Individual firmness level adjustment in the middle zone area
- Versions: FIX/FLEX/MOT
- XXL frame

## Balance 900 LIFT

### The lift frame with a large opening

- 28 high-quality sprung wood strips bonded with multiple layers
- Large opening for a bed drawer and easy cleaning
- Individual firmness level adjustment in the middle zone area
- Versions: LIFT FLEX/LIFT MOT

The combination of a sprung wood frame and a mattress determines the ergonomic quality of your sleep. Two things are crucial here: solid workmanship, on the one hand, and the desired flexibility and adjustability, on the other. Choose between five possible widths (80/90/100/120/140 cm) and four possible lengths (190/200/210/220 cm).

## Balance 300

### The 7-zoner with optimum pressure relief

- Luxury sprung wood frame with 42 high-quality sprung wood strips bonded with multiple layers
- Storage in flexible brackets that cover the outer bar
- Individual firmness level adjustment in the middle zone area
- Versions: FIX/FLEX/MOT

## Balance 300 MOT SF

### The motorized one with a particularly flat structure

- Offers all the characteristics of Balance 300, but with motor technology integrated into the sides of the bars
- Result: an extremely flat frame that can be integrated into almost any bed system
- Individual firmness level adjustment in the middle zone area

## Boxspring inside

### Subconstruction for maximum sleeping comfort

- Mixed installation possible as FIX and MOT versions\*
- L/W/H for a "90 x 200 cm inside": 196 x 89 x 12.5 cm
- Pocket spring core height = 6 cm (with shoulder zoning in the spring core)
- MOT variant: version with manual radio switch and connectible app, lifting force 2 x 7000 N
- 3 mesh gray cover

\* MOT not on internal crossbars in upholstered bed/bed (only available with mounting brackets or continuous mounting rail for mixed installation)

# BEAUTIFUL EXTRAS FOR "BEAUTIFUL SLEEP"

Perfectly round out your sleeping experience:  
With fine neck cushions from the femira sleep experts.

## The Visco Pillow

**The reliable Visco foam neck pillow  
with memory effect**

- Removable cover
- Washable up to 60 °C
- Height adjustable 8 to 10 cm

## The Organic Cold Foam Pillow

**The eco-friendly organic cold foam  
neck pillow with 20% castor oil**

- Removable cover
- Washable up to 60 °C
- Height adjustable 8 to 10 cm

## The Breeze Pillow

**The adaptable neck pillow  
with XDura cold foam**

- Removable cover
- Washable up to 60 °C
- Height adjustable 8 to 10 cm
- Cooling effect

When things are upside down,  
a femira cushion still feels good.

# MATTRESSES & CO.: OVERVIEW OF THE FEMIRA CATALOG

With the femira mattress catalog, it is now even easier to find the best sleeping solution on an individual basis.

Five pocket spring core mattresses, five foam mattresses, plus a matching selection of toppers, frames, and accessories: that's all.

Everything is clearly arranged and sorted so that you can immediately find the sleeping solution that allows you and all your family members to enjoy the most restful sleep.

# EVERYTHING YOU NEED FOR A GOOD NIGHT'S SLEEP: FROM THE BOX SPRING TO THE WARRANTY

With a mattress, a sprung wood frame, and a topper from femira, you can make an enduring qualitative decision in favor of better sleep.

It's right in the femira warranty: femira offers you the option of extending the statutory warranty of 2 years by 3 extra voluntary years. Simply register for the extension after purchase – we then grant you as a first-time buyer a 5-year warranty on the material and surface properties, the functional reliability, and the professional processing of our mattresses, in accordance with the RALGZ430 quality and testing specifications of the Deutsche Gütegemeinschaft Möbel e.V. At the same time, we offer you the option of an end-to-end solution: high-quality femira box-spring and upholstered beds offer almost unlimited possible combinations for your bedroom. Always in femira quality – and always so carefully thought out that you will find the best possible individual solution in terms of function and design. Talk to your specialist retailer: he or she will be happy to advise you.

UP TO

Here as well, **5 is the magic number:** 5-year warranty on all femira products

\* After registration on [femira.de/garantiezertifikat](https://femira.de/garantiezertifikat)

**A class of their own:**  
femira box spring beds

**The perfect home for your new mattress:**  
a femira upholstered bed
